

TRADE LIST

of

HOLLIES

Choice Varieties

WILMAT HOLLY CO.

Narberth, Pa.

The demand this past year for choice holly liners far exceeded expectations. As a result many orders could not be filled. This we regret.

This year we hope to have a finer and larger stock. Every effort is being made to double our production of hardy northern varieties of *Ilex opaca*, *Ilex cornuta*, *Ilex pernyi* and of the varieties of *aquifolium* which have shown ability to withstand sub-zero temperatures. English hollies which thrive in the summer heat and dry weather of the south are also being propagated in larger quantity.

All stock grown in 3" pots or their equivalent unless otherwise stated.

ENGLISH HOLLIES

per 100

I. *aquifolium alcicornis*

\$ 45.00

Ilex aquifolium angustifolia. Leaves lance-like $\frac{1}{4}$ " wide, 1 inch long - spined. Tree pyramidal. Unusually ornamental male. Supply limited. Not more than 10 per order. 3 inch pots - .65 each

I. *aquifolium argentea marginata*

\$ 65.00

~~I. " Barnes (superb male)~~~~45.00~~

Ilex aquifolium camelliaefolia. Camellia leafed holly. Rich olive green leaves, purple stem. Berries large, bright red. Supply limited. Not more than 10 per order. 3 inch pots - .65 each.

* I. *aquifolium ciliata major* (one of the finest)

\$ 65.00

→ I. " Dickinson (male)

45.00

* I. " donningtonensis

65.00

Ilex aquifolium fructu-luteo, yellow berried
Ilex aquifolium fructu-aurantiaco, orange berried
 Both varieties have large sharply spined leaves. Attractive broad trees up to 12 feet in height. Both do well in a hot dry location. Supply short. Only 10 of each to a customer. 3 inch pots - .75 each

* I. *aquifolium integrifolia*

\$ 45.00

* I. " lichtenthalia

45.00

Ilex aquifolium recurva. An excellent hedge plant. Globe shaped - dense twiggy growth - small glossy leaves - large twisted sharp spines. Fruits sparsely. Supply short. Only 10 per customer. .65 each

- | | | |
|---|-------------------------|----------|
| * | I. aquifolium smithiana | \$ 65.00 |
| * | I. altaclarensis | 55.00 |

- * Ilex altaclarensis belgica. A hardy hybrid. One of the most beautiful. When 5 years old the deep glossy green leaves are often 4 inches long and nearly as broad. The rich, red berries are just under $\frac{1}{2}$ inch in diameter. It berries early and heavily.
- | | |
|--------------------|----------------|
| 3" pots | \$ 55.00 per C |
| 4" pots 12" to 18" | \$160.00 per C |

- | | | |
|---|----------------------------|----------|
| * | I. altaclarensis Shepherdi | \$ 55.00 |
| * | I. " Jan vantol | 55.00 |

* designates English holly varieties which have withstood sub-zero temperatures

CHINESE HOLLIES

In the past we have grown a few hundred Ilex pedunculosa. This year we shall produce twice as many because of the demand. Those who know it, recognize its many landscape uses. The pear type evergreen leaves and cherry-like fruit on 2 inch stems make it especially attractive. Equally as hardy as American holly, it is less choosy as to soil and will do well in the Great Lakes region as well as in the south.

- | | | |
|---------------|--|------------------|
| I. | cornuta (male) northern strain | \$ 45.00 |
| I. | " (female) " " | 45.00 |
| I. | " burfordi | 40.00 |
| I. | pedunculosa (male) 6" - 10" | 65.00 |
| I. | " (female) 6" - 10" | 65.00 |
| I. | " (male) 10" - 15" | 95.00 |
| I. | " (female) 10" - 15" | 95.00 |
| I. | pernyi (male) | 50.00 |
| I. | " (female) | 50.00 |

AMERICAN HOLLIES

Under the title "Selected heavy fruiterers" we are offering stock taken from trees growing in Connecticut, most of which were selected and propagated originally by the Boyce Thompson Institute, Yonkers, N.Y. They are excellent heavy bearing selections especially suited for the region from Massachusetts and southern New York through Ohio to Illinois and southern Michigan.

	per 100
I. opaca Selected heavy fruiterers	\$ 65.00
I. " Arden	45.00
I. " Croonenberg (for the south)	45.00
I. " Draper (good northern type)	45.00
I. " Griscom (well known Jersey variety)	45.00

Ilex opaca Old Heavy Berry. Considered the finest American holly. A heavy fruiter with large, glossy, deep green leaves. But it is hard to propagate by cuttings. Many are grafted and make excellent plants.

Rooted cuttings 3" pots Not more than 10 per order
.75 each
Grafts well est. 3" pots Not more than 25 per order
.95 each

If you want any, order early

I. opaca pyramidalis	\$ 55.00
I. " male (large flat leaf)	45.00
I. " male (small twisted leaf)	45.00

If you plan to order, do so early. 25 of one variety at 100 rate.
Prices F.O.B. the nursery. Packing free on orders accompanied by cash.
Usually terms to those who establish credit.
No stock shipped C.O.D. unless 25% is sent with the order.
All material offered subject to prior sale. All stock ready for early spring delivery.
All root balls wrapped in polythene film to prevent drying out.
